Accordingly, the proposal was examined and vide letter cited at ref (2) the following observation were noted wherein which the available RoW between Km: 646.324 to Km: 648.224 of NH-150A reach is limited and also the work of " Construction of proposed 4-lane ROB and its approaches in lieu of existing Level Crossing No. 18 at Km 620.60 on NH-150A near Nanjangud in the State of Karnataka on EPC Mode Job no: NH-150A-KNT(17)-16-17-012-S&R(B)" is under progress. As such the proposed gas pipe line will hinder/obstruct the construction of NH work and it was instructed to explore the alternate route for the laying of gas pipeline.

As per the discussion & instructions issued by the Authority, the AGP city Gas private limited has explored to lay the Gas pipeline along the RHS of the road adjacent to the APMC market compound. The laying of gas pipeline adjacent of the APMC compound has been carried out by HDD method for a length of 200 Mtr due to space constrain. Further, the laying is continued along the RHS within the available shoulder and crossing at Km: 647.348 (near Ambedkar Circle) and continued along the LHS within the available shoulder.

In lieu of this, the AGP City Gas Private Limited, Mysuru has submitted the compliance with due consideration of the completed work under the stretch. The Assistant Executive Engineer, NH sub division, Mysore has forwarded the same as per the site condition vide letter cited at reference (4) above.
