S. No	Observations by RO/MORTH/VJA	Compliance by SE/NH/VJA
1	It has been mentioned that the local land rates has been used for the calculation of license fees. As per Ministry's Circular No. RW/NH-33044/29/2015/S&R(R), Dt. 22.11. 2016, the license fee needs to be calculated based on the prevailing circle rate of land per unit area. Also, the dia of OFC taken while calculating the license fee is not consistent with the dia of OFC shown in the typical cross section.	The document pertaining to land rate, duly attested by Special Deputy Tahsildhar-II (LA), is herewith enclosed. License fee and Performance Guarantee Charges for the two different dia pipes i.e., 18" dia and 10" dia pipe are calculated as shown in the typical Cross Section enclosed.

2	The width of ROW is taken as 11.16m in performance guarantee charges and license fee calculations which shall be taken as per the 3(D) notification published for the reach.	The ROW at Km 88.555 is 14.00m as available in Land Records in the (R&B) NH Sub-Division, Bhimavaram. As there is no Land Acquisition proposal in that location, the point of 3(D) notification does not arise.
3	The various safety clearances from the respective authorities such as directorate of electricity; state/central pollution board and any other statutory clearance as applicable must be obtained by the applicant before applying to Highway Administration as per Clause 4 of Ministry's Circular dated 22.11.16. The same needs to be furnished.	The copies of laying permission issued by PESO and "consent order for establishment" from Andhra Pradesh Pollution Control Board are enclosed.

Hence, it is requested to accord necessary permission for laying of Bantumilli-Ullamparru Natural gas pipeline (BUPL) with 12" dia carrier pipe & 6" dia casing for OFC cable across NH-165 in Km.88/4 to 88/6 at Pennada village in West Godavari District in the State of Andhra Pradesh".
