

No. RW/NH-33045/5/90-D.O.II

*Dated, the 19th December, 1990.*

Subject: Typical cross-section of 4-lane Divided Highway

A sketch showing a typical cross-section of a 4-lane divided highway together with the kerb details for the dividing median is enclosed. This may please be adopted henceforth for 4-laning projects. This has the approval of Additional Director General (Roads).

The crust details of the existing 2-lane pavement as also the new 2-lane road, as shown in the sketch, are indicative only and would need to be modified as per specific project requirements.
