

No. HIII/P/70/76 Pt

*Dated the 6th December, 1976*

Subject : FDR/SR estimates for National Highways including bridges

DG (RD) has desired that all the FDR and SR estimates for National Highways (Roads & Bridges) should first be concurred in by the Project CEs irrespective of the cost before reference to the Maintenance Cell for release of funds. This is with a view to approving only the restoration and/or inescapable works thus economising on the available Maintenance funds which, as is common knowledge, are very limited.

To

All Chief Engineers & Superintending Engineers (Roads & Bridge)
